Subject: Information Requested

Steve,

Here is the below information you requested this morning from the PSS office:

03/13/00 0952 R. Sampsel reported he had been advised of a potential BeO release and possible exposure of personnel from a BeO process while the process was operating.

1017 T. Tindell reported the filters were for an AC unit and the system was smeared/tested and came back a negative finding when two area workers reported to medical with sore throat complaints.
